30 second story

At a recent software engineering management course in the US, the participants were given an awkward question to answer. "If you had just boarded an airliner and discovered that your team of programmers had been responsible for the flight control software how many of you would disembark immediately?"
Among the ensuing forest of raised hands, only one man sat motionless. When asked what he would do, he replied that he would be quite content to stay onboard.

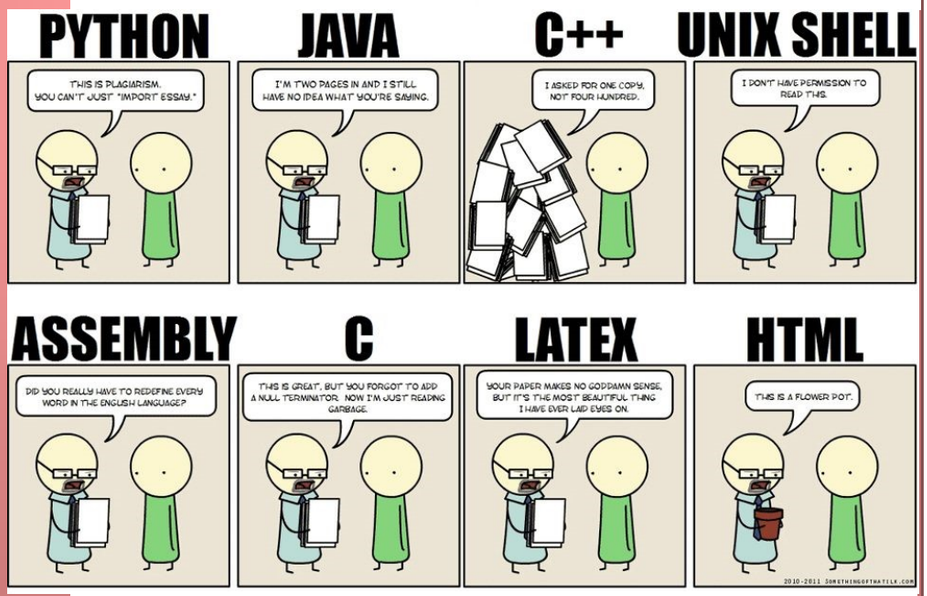
"Hello, Bob? It's your father again. I have another question about my new computer. Can I tape a movie from cable TV then fax it from my VCR to my CD-ROM then E-mail it to my brother's cellular phone so he can make a copy on his neighbor's camcorder?"



LIFE BEFORE THE COMPUTER

* Memory was something that you lost with age
* An application was for employment
* A program was a TV show
* A cursor used profanity
* A keyboard was a piano
* A web was a spider's home
* A virus was the flu
* A CD was a bank account
* A hard drive was a long trip on the road
* A mouse pad was where a mouse lived
* And if you had a 3 1/2 inch floppy ....you just hoped nobody found out
