BIBLE FOR DUMMIES

"MANY ARE THE PLANS IN A MAN'S HEART, BUT IT IS THE
LORD'S PURPOSE THAT PREVAILS."

-PROVERBS 19:21

30 second story

The avengers are in their Quinjet on the way to a mission to Latveria. ON the way there, they caught in a storm and one of the engines is taken out by lightning. Iron Man turns around and says "Don't worry team, we've got four more engines where that came from, we'll just be slightly delayed." Five minutes later, the jet is hit by another bolt of lightning. Iron Man turns around and says "Don't worry, the three remaining engines have more than enough power to get us to Latveria safely. It is just going to take us even longer. This pattern repeats until there is only one engine left. Starting to panic, Stark tells his team "it's ok, we can probably still make it with one, but we are gonna have to really take our time now." Captain America turns to Black Widow and says "Can you believe this? If that happens again we'll be stuck up here all day!"

Marvel Comics Facts!

1. In the Marvel Universe, a company called Marvel Comics exists and publishes licensed adventures of 'real life' heroes like the Fantastic Four and Avengers.
2. Daredevil once had an animal sidekick, a seeing-eye dog named Deuce the Devil Dog. Foggy lost the dog in a poker game.
3. The people deemed worthy to wield Thor's hammer are: Captain America, Black Widow, Storm, Conan the Barbarian, Superman, Wonder Woman, and even Loki in unusual circumstances.
4. Marvel has had multiple characters called Captain Marvel because if they don't keep publishing a book with that title, DC will claim the trademark for its character of the same name.
5. Hulk was originally gray but turned green because it was an easier color to print.
6. Steve Ditko has written and drawn an entire Doctor Strange Graphic Novel that you can't read, because he made it for himself.
7. Black Panther briefly changed his name to Black Leopard so Marvel could avoid the connection to the political party.
8. DC and Marvel share the trademark to the phrase "Super Hero"
9. Captain America is weak compared to Spiderman. Cap can lift 800 lbs. while Spiderman can lift up to 10 tons.
10. Stan Lee put a hyphen in Spider-Man's name so it would look different from Superman in print.
