## BIBLE FOR DUMMIES

"WE HAVE REDEMPTION THROUGH HIS BLOOD, THE FORGIVENESS  
OF SINS ACCORDING TO THE RICHES OF HIS GRACE."

-EPHESIANS 17

## 30 second story

An astronomer is on an expedition to Darkest Africa to observe a total eclipse of the sun, which will only be observable there, when he's captured by cannibals. The eclipse is due the next day around noon. To gain his freedom he plans to pose as a god and threaten to extinguish the sun if he's not released, but the timing has to be just right. So, in the few words of the cannibals' primitive tongue that he knows, he asks his guard what time they plan to kill him.

The guard's answer is, "Tradition has it that captives are to be killed when the sun reaches the highest point in the sky on the day after their capture so that they may be cooked and ready to be served for the evening meal".

"Great", the astronomer replies.

The guard continues, though, "But because everyone's so excited about it, in your case we're going to wait until after the eclipse."

## SPACE Facts!

1. A tablespoon of neutron star would weigh about ten billion tons.
2. Weightlessness makes astronauts grow several centimeters during a long mission.
3. The heart of a star reaches 16 million °C. A grain of sand this hot would kill someone 150 km away.
4. Jupiter has almost no surface for a spacecraft to land on because it is made mostly from helium gas and hydrogen. The massive pull of Jupiter's gravity squeezes the hydrogen so hard that it is liquid.
5. Twice during Mercury's orbit, it gets so close to the Sun and speeds so much that the Sun seems to go backwards in the sky.
6. During the moon landing, a mirror was left on the Moon's surface to reflect a laser beam which measured the Moon's distance from the Earth with amazing accuracy.
7. 99% of our solar system's mass is our sun.
8. Each day, Earth accumulates 10 to 100 tons of material.
9. The nearest known black hole is 1,600 light years (10 quadrillion miles/16 quadrillion kilometers) away.
10. The density of Saturn is so low, that if you were to put Saturn in water, it would float.

## QUOTE OF THE WEEK

"I DON'T HAVE DELUSIONS OF GRANDEUR, I HAVE AN ACTUAL RECIPE FOR  
GRANDEUR." — EDDIE MORRA

## RANDEST FACT YOU'LL EVER READ

"A GIANT SQUID HAS A DONUT-SHAPED BRAIN THAT ENCIRCLES THE ESOPHAGUS. IF  
IT INGESTS ANYTHING TOO LARGE, IT RISKS BRAIN INJURY."

## SHOWER THOUGHT

"IF A GHOST KILLED SOMEONE IN REAL LIFE, THOSE PEOPLE WOULD BECOME  
GHOSTS AND IT WOULD BE REALLY AWKWARD."

Created and edited by Andre Gonzalez

### UPCOMING EVENTS:

- Worship  
this Mon-  
day in the  
lobby
- This Fri-  
day, special  
OPS  
Breakfast!

# Hardy Har Har!!

## UJ Facts!

- 1) UJ stands for Urinal Journal
- 2) Each UJ takes about 2 hours to make
- 3) Sources for information and memes include Reddit, Ifunny, Twitter, and Google.
- 4) At least 2 words need to be changed in each UJ
- 5) The meme "Loading Afro" was featured in 3 separate UJs.
- 6) The Bible Verse "Jeremiah 29:11" was also featured in 3 different UJs
- 7) UJ is an official OPS Publication
- 8) Themes are picked depending on the evets of recent pop culture.
- 9) AGA Has their own version of the UJ called the Toilet Paper
- 10)Each UJ has a secret word hidden in it somewhere in the design.
